Arranging to Pay the Friendly Indians for Their Losses During the Recent Outbreak. TAKING A CENSUS OF THE SIOUX—SUBISSUE STA-TIONS TO BE ERECTED-MANY TAKING THEIR LANDS IN SEVERALTY AND THUS BECOMING CITIZENS.

Just now the Indian bureau is occupied with arrying into effect the legislation enacted at the last session of Congress relative to the Sioux Indians. There were a great many provisions in the Indian appropriation bill which were given the sanction of law and were designed to satisfy the claims made against the government and also to enable the Indians to become citizens and to own their own lands. During the Indian troubles of the past winter the friendly Indians suffered the loss of their homes and their stock, and in order to make good these losses Congress provided for the payment to them of \$100,000. A special agent is now in the field investigating the entire is now in the field investigating the entire matter with the view of ascertaining what losses were sustained by each Indian and also the aggregate amount, so that Indian Commissioner Morgan can use the money to the best advantage. The agent will make a report, and upon the basis of this report the commissioner will direct him to make the payments to the Indians. Another agent is at work ascertaining definitely the facts relative to the loss of ponies alleged by the Indians to have been taken from them by the government some years ago. Congress made an appropriation and as soon as possible the money will be paid to the claimants. to the claimants.

TO ERECT SUBISSUE STATIONS. Commissioner Morgan has authorized the Indian agents at the Sioux agencies to advertise for proposals for the erection of subissue stations and the necessary buildings will be erected as soon as the contracts can be let. Special instructions have been issued to employ Indian labor wherever practicable. Bids for furnishing a large number of stock cattle to the Sioux Indians have been advertised and these bids will be opened at the annual letting for Indian supplies, which will begin in New York city May 5. She was locked up to sleep off the effects of her liquor, and the police hope that she will at least give them some further clue. The house in which the tragedy was committed is guarded on all sides and no one is allowed to approach the upper floors.

The coroner found the woman's petticoat tied securely around her head. After this was taken off, a sheet was found, and below this the
